

PHANTOM DEVELOPER (NZ)

We are looking for a self-motivated and creative coder with excellent JavaScript abilities to join our new team in Auckland, New Zealand. The candidate should have extensive agency experience and a strong portfolio. If you love creating innovative data visualisations, exploring 3D space using frameworks like three.js and are not afraid of more traditional animation techniques using engines like TweenMax then we'd love you to apply! You'd work across our entire digital output (basically anything that can be seen on a screen, web and otherwise) collaborating closely with both the design and development team to come up with beautiful and intelligent solutions to challenging yet exciting briefs.

The ideal candidate will welcome learning new technologies and enjoy the opportunity to work across the full stack. A small sample of the technologies, languages and frameworks we use everyday include AngularJS, Three.js, Django, Python and Google App Engine.

Above all we really value creativity and the ability to find unique solutions to everyday problems. As we are a young company you will have the opportunity and freedom to shape the way we work.

The role will involve working on a number of high impact projects for massive global brands including Google, Sony Music and the Financial Times.

Your skills & abilities

- + Amazing examples of past work, both personal and commercial.
- + Expert knowledge of HTML5 and CSS3.
- + Expert knowledge of Javascript libraries and frameworks (examples of what we use include AngularJS, three.js, GSAP js).
- + Experience with advertising platforms such as DoubleClick.
- + Expert knowledge of Adobe Creative Suite.
- + Experience with Processing, Open Frameworks or Cinder.
- + Great eye for design.
- + Experience working with version Control (Git/Subversion)
- + Great communication with clients as well as technical and creative team members.
- + Ability to stay calm and prioritise in times of tight deadlines and conflicting demands.

- + Excellent documentation skills.
- + Self motivated with good time management

Your credentials

- + Degree in Computer Science or related technical/creative discipline.
- + Excellent knowledge of relevant programming languages and methodologies.
- + Excellent written and spoken English.

Bonus points

- + Your own website - you are proud of what you do right?
- + Knowledge of Python.
- + Experience with Unity.
- + Doubleclick certification
- + Experience developing for mobile and or tablet devices (both android and iOS)

GO AHEAD AND APPLY

We'd love to hear from you. Please get in touch with Technical Director Matt Booy (matt@phntms.com) and Managing Director Emily Shorvon (emily@phntms.com) with your CV and cover letter.

Please note: This role may include other duties and responsibilities from time to time and may be subject to review and amends to reflect any changing needs of the business.
